The I.D. System offers rare insight into people by capturing why they do what they do. As an Executive Consultant to corporate leaders, I've intensely used the I.D. for over a decade and watched it repeatedly transform leaders, teams and relationships with minimum disruption to the business. It is a game changer.

Knowing my client's I.D., I can consult to them with laser-sharp accuracy and acceleration. I know how to work with them so they get what they need in a usable, translatable way. After using this tool as a consultant for over 10 years, I can't even imagine working with anyone without knowing his or her I.D.
